For Description and Price, *vide* page 15.

ONLY BULBS OF THE FINEST QUALITY ARE SUPPLIED.

SELECT AND DESCRIPTIVE

RETAIL LIST

OF

BULBOUS & TUBEROUS-ROOTED PLANTS,

OFFERED BY

WILLIAM BULL, F.L.S.

ORDERS ARE RESPECTFULLY SOLICITED EARLY TO ENSURE FINE BULBS.

For the convenience of purchasers who do not wish to choose their own sorts, Mr. W. Bull will have much pleasure in making suitable and liberal selections of the finest and most distinct free-blooming varieties.

HYACINTHS.

Those marked thus (*) are the earliest, and most suitable for glasses, moss, &c.; and the sorts marked thus (†) are the best for exhibition porposes.

L'INTÈRESSANTE, bright golden yellow, good truss

8s., 10s. and 12s. per dozen, according to selection.

HYACINTHS IN DISTINCT COLOURS.

FOR BEDS OR BORDERS.

Cannot be too strongly recommended to all admirers of spring gardening. The varieties selected, in the different colours, are such as will bloom at one time, and produce a display so rich and varied, combined with delicious perfume, that no other spring flower can equal.

HYACINTHS, ROMAN.

Are most suitable for early forcing, producing their neat and pretty spikes of flowers from November to January; they are well adapted for bouquets and vases, and are very fragrant.

	s. d.		s. d.
Per dozen	3s. & 3 6	Per 100	20s. & 25 0

NARCISSUS.

POLYANTHUS NARCISSUS.

These have the fragrance of the Jonquils, and are useful for in-door decoration; they are of easy culture, and can be forced early. The *Double Roman* is very desirable for early blooming; two or three bulbs are recommended to be planted in one pot, so as to produce a fine mass of flowers.

CYCLAMEN PERSICUM.

Too much can scarcely be said in favour of the superb varieties of this plant, of which the old *C. persicum* is the type, whether they are regarded as objects for the ornamentation of the greenhouse or conservatory, or for table decoration, for which their compact floriferous character eminently fits them. The flowers are also extremely useful for bouquets, and when plucked, if kept in water, they will last in freshness and beauty some weeks.

ASTILBE BARBATA.

GENERALLY, BUT ERRONEOUSLY, KNOWN AS

HOTEIA JAPONICA, AND SPIRÆA BARBATA.

Cannot be too highly appreciated as a decorative plant for early forcing, its pretty erect shining green foliage, surmounted by numerous beautiful and graceful panicles of white inflorescence, giving the whole plant an elegant appearance, and rendering it at once most pleasing and useful for decorative purposes.

Strong imported clumps, 9s. and 12s. per dozen.

SPIRÆA PALMATA.

One of the most beautiful hardy plants in cultivation, with deep purple red stems and branches, and crimson-purple broad corymbs of flowers. It is a native of Japan, and was discovered and introduced by Mr. Fortune. 12s. per dozen.

DIELYTRA SPECTABILIS.

Strong clumps of this graceful and well known plant for early forcing.

Price, 6s. and 9s. per dozen.

IRIS.

ENGLISH (I. anglica or Xiphioides).

For brilliancy of colour and fine vigorous foliage the English Iris takes rank amongst the handsomest of flowering bulbs. They greatly resemble the Spanish Iris in style of growth, attaining a height of about 2 feet, and produce, during June and July, a succession of large and beautiful flowers.

Good and varied selections of Lilies made at 12s., 18s., 30s. and 42s. per dozen.

AMARYLLIS.

This deservedly popular family cannot be too highly recommended. The ease with which they are cultivated and the gorgeously beautiful flowers they produce at almost any season, make them most desirable in any collection. By gradually drying the bulbs they can be put to rest at any time during the year, and then when required, if started in a gentle heat they quickly develope their large Lily-like blossoms, which are of various colours, generally embracing crimson, white and red, scarlet, rose-flaked, striped white and crimson, with various shades of colours.

AMARYLLIS, choice selections of good sorts, 3, 4 and 6 guineas per dozen.

AMARYLLIS BELLADONNA (The Belladonna Lily).

This beautiful hardy bulb is imported early in September; their large handsome blush flowers richly flushed with rosy purple, render them extremely useful for greenhouse and conservatory decoration. 6*s.*, 9*s.* and 12*s.* per dozen; 40*s.*, 60*s.* and 80*s.* per 100.

BEGONIAS.

HANDSOME-FLOWERED, TUBEROUS-ROOTED SECTION.

Those marked (*) *are double-flowered varieties.*

The following novel and beautiful varieties will be found admirably adapted for the summer and autumn decoration of the Greenhouse and Conservatory; for they produce in the utmost profusion magnificent flowers of very large size, and great variety in colour. They do not require stove cultivation, but will succeed well in a greenhouse. The tubers rest during the winter months, similar to Gloxinias, and can be easily re-started into growth in the spring.

These can be sent in boxes by post.

Selections of good varieties of Handsome-flowered Begonias can be made by Mr. W. B. at 18s., 30s. and 42s. per dozen.

EUCODONIAS.

These exceedingly pretty hybrid Gesneraceous plants have nicely tinted ornamental foliage and extremely beautiful flowers, which are freely produced on small plants. The flowers are nearly the size and form of a drooping Gloxinia, but have the soft colouring and elegant markings of some of the attractive Tydæas. 1*s.* and 1*s.* 6*d.* each, according to sorts.

GESNERAS (NÆGELIAS).

The value of Gesneras as decorative plants can scarcely be over-estimated. Most of them have rich velvet-like foliage, which, in the respective kinds, varies from green to crimson. If only grown for the foliage they are very attractive, but they produce splendid pyramidal spikes of blossom, which are extremely handsome. Originally, however, the principal colour was orange-scarlet; now, as the result of fertilisation, there are various colours and shades, added to which the spotting on the flowers of some of the varieties is extremely pretty. Selections of good varieties at 30*s.* and 42*s.* per dozen.

NEW AND CHOICE GLOXINIAS.

Those marked thus (*) have drooping flowers.

Choice selections made by Mr. W. B. at 18s., 30s. and 42s. per dozen.

GLOXINIA INSIGNIS, this distinct variety produces its flowers during the autumn and winter; colour bluish lilac, marked with a large crimson blotch at the base of the tube. 2*s.* 6*d.*

GLOXINIA MACULATA SCEPTRUM, a magnificent hybrid, with extra large erect cordate foliage; it produces a rigid terminal inflorescence, exceeding twenty inches in height, which bears majestically its large, clear lilac, well-formed blooms. 2*s.* 6*d.*

TYDÆAS.

These can be cultivated so as to produce an abundance of bloom throughout the winter, their flowering season principally depending on the time of year their tubers are started into growth. With a little management a succession of blooming plants can be had nearly throughout the year. 18*s.*, 24*s.*, 30*s.* and 42*s.* per dozen, according to sorts.

CRINUM AMABILE	10	6
—— AMERICANUM . . . . . 2s. 6d. &	3	6
—— ARENARIUM	10	6
—— AUSTRALE, this bears the name of Botany Bay Lily, and is an ornamental bulbous plant, requiring greenhouse temperature. The bulbs are smooth, thick, and cylindrical. The flowers, which are very fragrant, are numerous, from ten to fifteen in an umbel, each attached by a pedicel longer than the ovary, and consisting of a long slender tube, and a spreading or recurved limb of six white segments	5	0
—— CAPENSE ALBUM	1	6
—— —— ROSEUM	1	6
—— COMMELYNI, this has been imported from British Guiana, and is a comparatively small growing kind, very showy, and much better adapted for pot-culture than the larger sorts; the flowers are white streaked with purple, handsome, and effective	7	6

CRINUM PEDUNCULATUM PACIFICUM.

A noble species, known as the Wedding Lily, introduced from Lord Howe's Island, producing immense umbels of deliciously scented, pure white blossoms. The individual flowers are from four to five inches in diameter, and as many as from twenty to thirty are produced in each umbel. The plant is of bold habit, with lanceolate recurved leaves and somewhat cylindrical-shaped bulbs. The delightful fragrance of its large and handsome heads of chaste blossoms makes this plant a most desirable acquisition. 10*s.* 6*d.*, 15*s.* and 1 guinea.

LAVATERA ARBOREA VARIEGATA.

Price, 2s. 6d. per packet of 30 seeds; plants, 3s. 6d. each; per dozen, 30s.

The *Journal of Horticulture*, in noticing this decorative border plant, which received a First Class Certificate from the Royal Horticultural Society, in May 1882, thus writes of it :—"Very rarely indeed does it fall to our lot to figure for the first time and introduce to our readers a border plant so striking in appearance as the Variegated Tree Mallow. When Mr. Smith first sent us leaves of his new acquisition, we were almost startled by their markings; the irregular mixture of very dark green, pale greenish grey, and pure white, impart to the plant a remarkable appearance."

Mr. Smith, from whom Mr. W. B. purchased the entire stock, wrote respecting it :—"I have proved that it comes true from seed, but it must be understood that it is something like the Variegated Maize, does not show much variegation in a young state. The plants from seed sown last spring are now beautifully variegated. There is not the least doubt but that it will be one of the finest and most effective plants for large beds and borders that has ever been introduced. Last winter it stood out without injury; it is best, however, to pot some up, and keep them in a cool house, and turn them out in spring, but a slight protection outside would be sufficient to keep the plants undisturbed in beds or borders, which is desirable, for in spring of the second year the beauty of such plants is beyond description."

FLOWER SEEDS FOR AUTUMN SOWING.

	Per pkt.—s.	d.
ABUTILON, new varieties, extra choice	1	6
Alyssum maritimum (sweet), white	0	6
Auricula, Alpine, very fine strain, 1s. 6d. &	2	6
BEGONIA HYBRIDA GIGANTEA, the flowers, which are produced in great abundance, are of gigantic size, measuring 4 to 5 inches, and of various and attractive colours	2	6
Calandrinia umbellata, crimson	0	3
CALCEOLARIA, HERBACEOUS, Bull's Prize Strain, 1s. 6d. &	2	6
Calliopsis tinctoria, yellow and brown	0	3
Candytuft, dark crimson	0	3
—— Tom Thumb, new, white	0	6
CINERARIA, BULL'S PRIZE STRAIN, flowers very large, some nearly 3 inches across	5	0
—— extra choice mixed 1s. 6d. &	2	6
Collinsia bicolor, purple and white	0	3
—— grandiflora, purple.	0	3
—— verna, blue and white	0	6
Cyclamen persicum, prize strain, finest, 1s. 6d. &	2	6

Mr. W. Bull's General Seed Catalogue will be published in January.

ROSES.

Mr. William Bull will be happy to supply choice selections on the following terms :—

	PER DOZEN.
NEW VARIETIES	42s.
SUPERIOR SELECTED STANDARDS, in fine varieties	18s., 24s. & 30s.
HALF STANDARDS, in fine varieties	18s. & 24s.
DWARFS, in fine varieties	12s. & 18s.
CLIMBING, in pots, the best, selected from Noisette, Banksian, Macartney, Hybrid China, Ayrshire, Boursault and Evergreen	12s. & 18s.
TEA-SCENTED, in pots	18s., 24s. & 30s.
HYBRID PERPETUALS, finest varieties, in pots	18s., 24s. & 30s.

Extra-sized plants of the best varieties of Roses in pots, for Exhibition or Forcing, at 3s. 6d., 5s. and 7s. 6d. each.

GRAPE VINES.

The plants supplied are of matured growth, have all been grown from eyes, and the Fruiting Canes are of superlative quality.

Fruiting Canes, 10*s.* 6*d.* and 12*s.* 6*d.* each ; good Planting Canes, 5*s.* and 7*s.* 6*d.* each.

A SUMMARY PRICED LIST OF FRUIT TREES.

All of the best Quality at prices as below.

	DWARFS.			STANDARDS.	
Name.	Fine full Trained Trees.	Untrained.	Pyramidal.	Finest full trained trees with clean straight stems.	Untrained.

Peaches	5*s.*	1*s.* 6*d.*	—	12*s.* 6*d.* & 15*s.*	2*s.* 6*d.* & 3*s.* 6*d.*
Pears	3*s.* 6*d.*	1*s.* 6*d.* to 3*s.* 6*d.*	2*s.* 6*d.* to 7*s.* 6*d.*	10*s.* 6*d.*	1*s.* 6*d.* to 7*s.* 6*d.*
Plums	3*s.* 6*d.*	1*s.* to 2*s.* 6*d.*	2*s.* 6*d.* to 7*s.* 6*d.*	10*s.* 6*d.*	1*s.* 6*d.* to 3*s.* 6*d.*

SUNDRIES.

TOBACCO PAPER, best manufacture. Per lb., 1*s.* 6*d.*
ARCHANGEL MATS, large size and best quality. Each, 2*s.* 6*d.*
RUSH GRASS (RAPHIA), for tying. Per lb., 2*s.*

Mr. W. Bull wishes to remark that his attention is especially directed to the introduction of New, Rare and Beautiful Plants, and that he will be happy to make arrangements with *Botanists* or *Naturalists* going abroad for the transmission of *Plants, Seeds, &c.;* and will be glad to purchase or make arrangements for the sending out of any first-rate *Seedling Varieties of Plants* that may be raised by *Amateurs* or *Gardeners* in this country.

H. M. FOLLETT & Co., Horticultural Steam Printers, Fann Street, Aldersgate Street, London, E.C.

SEED FROM PRIZE STRAINS.

PRIMULA SINENSIS.

PRIMULA SINENSIS FIMBRIATA MONT BLANC.—Unrivalled in the pureness of its snowy white, densely fringed flowers, which are of great size and substance. 5*s.* per packet.

PRIMULA SINENSIS FIMBRIATA SPLENDIDA.—The flowers of this magnificent strain are a deep crimson, beautifully fringed, and of immense size and substance. 5*s.* per packet.

Mr. W. Bull has great confidence in offering the above unrivalled strains of Chinese Primulas. They are unsurpassed in the great breadth and substance of their beautifully fringed flowers, which are borne in immense heads, growing well above the foliage. They are of fine habit, and can be highly recommended.

PRIMULA SINENSIS FIMBRIATA ALBA
PRIMULA SINENSIS FIMBRIATA RUBRA
PRIMULA SINENSIS FIMBRIATA FILICIFOLIA ALBA
PRIMULA SINENSIS FIMBRIATA FILICIFOLIA RUBRA
} Extra choice.

These varieties possess most elegantly fringed edges, and are offered with the greatest confidence. 1*s.* 6*d.* and 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA "Bull's Premier Mixture." 1*s.* 6*d.* and 2*s.* 6*d.* per packet.

Seed of Mr. William Bull's select strain of this useful and favourite plant is now offered in mixture containing all the new and most distinct colours and varieties; the many unsolicited testimonials received point conclusively to the fact of its being appreciated among growers as of unusual excellence. To distinguish this from the ordinary mixture of *P. alba* and *rubra* generally supplied, Mr. W. B. designates this choice mixture as above.

PRIMULA SINENSIS FIMBRIATA KERMESINA SPLENDENS.—A fine variety, with rich crimson-coloured flowers. 1*s.* 6*d.* and 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA "VILLAGE MAID." White striped with rosy carmine; splendid variety. 1*s.* 6*d.* and 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA ALBA FL. PL.
PRIMULA SINENSIS FIMBRIATA ROSEA FL. PL.
PRIMULA SINENSIS FIMB. KERMESINA SPLENDENS FL. PL.

These double Primulas are a valuable acquisition, especially to cut from, as they do not drop their flowers like the single varieties. 3*s.* 6*d.* and 5*s.* per packet.
